

CSL & Leicester City are a winning team

Leicester City was founded in 1884 as Leicester Fosse because their home matches were played on a field by the Fosse Road. Before moving to Filbert Street in 1891, the club played at five different grounds.

Following a successful 3 year contract with CSL providing Konica Minolta devices, we're very proud to announce that the club have re-signed a long-term extension to their contract. John Sharp, Group Sales Director presented a successful solution to L.C.F.C. to install new Konica Minolta machines throughout their premises at both King Power stadium and the training ground.

CSL are confident that they will continue to provide an excellent after-sales service which is second to none.
